

IP2PGO TOKEN

A COMMUNITY TOKEN FOR MEMBERS OF IP2PGO PLATFORM

A community effort

In a Co-operative (“Co-op”), members invest in the Co-op and receive a share of the Co-op income by supporting the co-op business, therefore as the Co-op prosper the members will also prosper by earning larger income on their shares.

This concept is similar to our community token concept. The more support iP2PGO receives from its members to grow the platform transaction volume, the more prosperous our members will be by getting higher amount of income from their GO token holdings, thus increasing the value of the GO token.

GO token utilities

Owners of GO tokens can use it to pay the platform transaction fee at a discounted rate (10% discount).

Owners of GO token are entitled to 30% share of the NET revenue earned by IP2PGO, which will be calculated and distributed on a daily basis to owners of GO token on that particular day.

Owners of GO token can make suggestions and vote for any ERC20 token to be listed in the IP2PGO platform.

How do I get GO tokens ?

Users can purchase GO tokens from the iP2PGO App by using cash or any token listed on iP2PGO.

or

users can participate in iP2PGO promotional programme whereby on completion of the tasks required under the promotion the users will be rewarded with GO tokens.

A COMMUNITY TOKEN FOR MEMBERS OF IP2PGO PLATFORM

Is this an ICO ?

NO This is NOT an ICO.

Unlike an ICO, the GO token is not issued to raise funds to develop iP2PGO App.

The iP2PGO App development has already been completed and was fully funded by iP2P Global Ltd., and as of 8th December 2018, the iP2PGO App has already been launched in Australia, China, Indonesia, Malaysia, Vietnam, Nigeria, Ghana, & South Africa with more countries to be launched in the coming months.

Unlike an ICO where there is an end date to the offering and where investors have to wait for the token to be listed before trading it, the GO token will be made available for sale & purchase (trading) immediately on the iP2PGO App. The GO token will NOT be listed in any other exchanges.

GO token sales proceeds will be used to:

- I) fund further growth of the iP2PGO platform and hence enlarging its community,**
- II) continue providing quality product and services to the growing iP2PGO community.**

These activities, amongst others may include; providing additional trade liquidity into the iP2PGO platform, continuing improvement on the platform features, and undertaking more marketing activities to add more countries app and users.

iP2PGO (“GO”) token termsheet
