F. Taking another user's Buy Offer i.e. You are a Seller
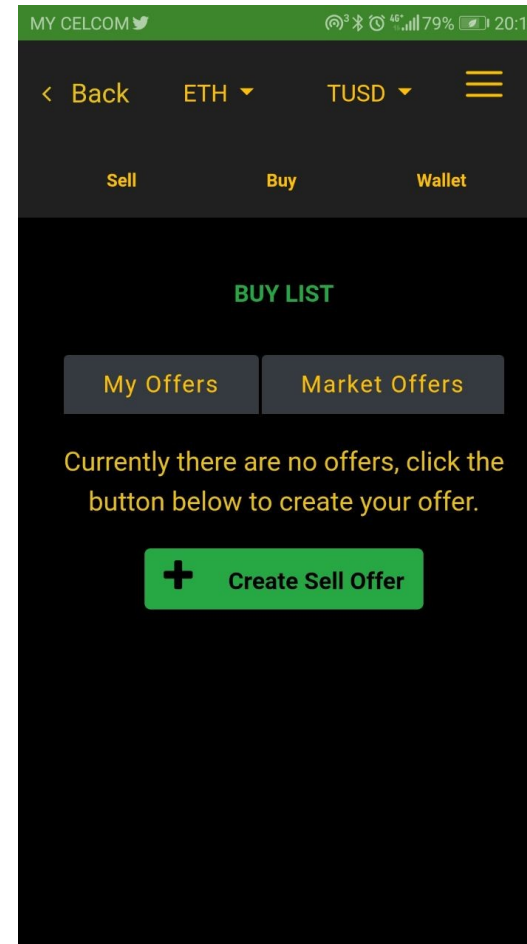

A. You Create a Sell Offer

(1) (2) (3)

1. In the Main Page, click on the token that you want to sell. In this example, you want to sell Ether (ETH). Press the ETH token box.

2. On the top of your screen, there are 2 dropdown token pairings to choose. The 1st dropdown option is the token that you want to buy or sell and the 2nd dropdown option is the token that you want pay or receive respectively. In this example, you want to sell ETH for TUSD tokens. Select these 2 pairings from the 1st and 2nd dropdown options at the top of your screen.

3. Click on the Buy button and it will display the current buy list of ETH/TUSD on the platform. Click on the green Create Sell Offer.

A. You Create a Sell Offer (con't)

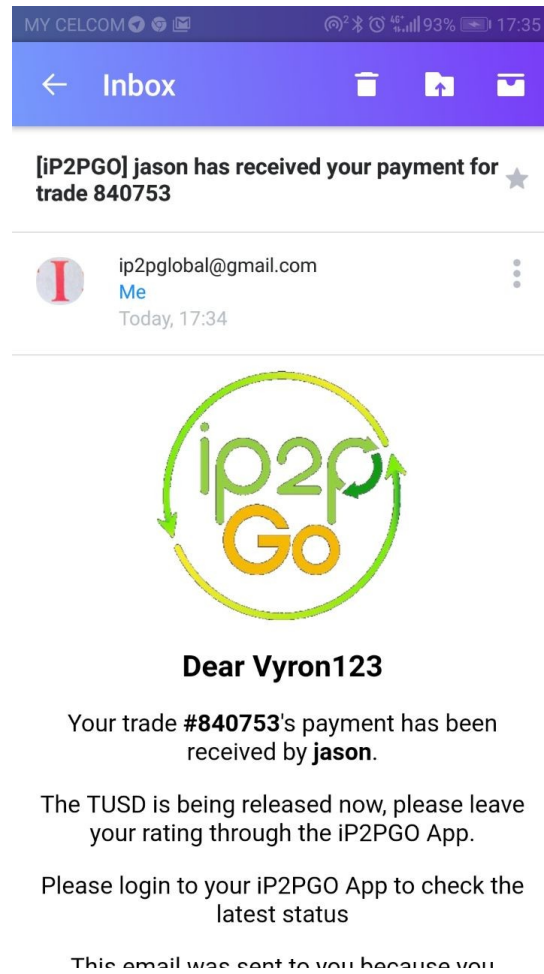

(4)   (5)   (6)

4. Use the slider to select between -5% to +5% against the spot sell price that you want to sell. After you have selected the %, your offer price in absolute terms for 1 ETH will be shown. You also have the option to set the minimum price that you wish to receive in the Floor Price field.

5. Key in the maximum and minimum amount of ETH that you wish to sell in this one offer. If you are a verified user, you have the option to choose only verified users will be able to buy from you. Click on the Create button.

6. Your Sell Offer has been created and you can see it displayed under the Buy tab of ETH/TUSD. Each offer will have an ID, which in this case your Offer ID is 370769.
